Drechserei Kuhnert GmbH

08237 Steinberg

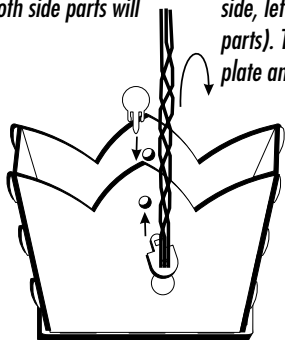

Hauptstr. 28

1.) Lay down the ground plate on 2 flowers or other small parts. Stick both big side parts into the slots of the ground plate. The feet of both side parts will protrude a little bit.

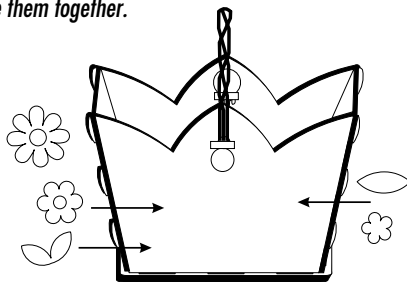

2.) Small side parts: put glue on the plane parts of the curved edges (lower side, left and right side of the side parts). Then stick them into the ground plate and glue them together.

3.) Now the small parts under the ground plate can be removed.

4.) Stick the 3 rattan sticks through the hole and fix them in the small ball. You can weave the rattan sticks to get one big stick. After this please stick the end of the rattan through the hole and into the second small ball.

5.) For both sides: push the rattan piece through the hole of the side part and fix it.

6.) Colour the basket and decorate it with flowers.
