

INSTRUCTIONS

You can use common wood glue. It's easier to colour the parts before mounting. Only for decoration, no toy! Suitable for children older than 5 years. Children under 5 years only under supervision of an adult.

Put a cut resistant plate underneath the sheet of plywood when working with the cutter knife. Stick through the small paths of the sheet of plywood with the help of the cutter knife from both sides. Break out all parts, sand breaking points if needed and colour all parts with the colour you like.

Attention!

- don't let children or pets alone with the incense
- not suitable for children's hand
- always use incense, don't use candles

10153 Smoking igloo

Drechserei Kuhnert GmbH

08237 Steinberg

Hauptstr. 28

1.) Stick all 8 parts of the frame into the round ground plate and glue in the small plate on the top. If possible use a rubber band to fix the frame while the glue is drying.

2.) Insert the parts to fulfill the rows between the frames. The part with the door needs to be on the ground. If possible again use a rubber band to fix the frame while the glue is drying.

3.) Colour the penguin's beak orange and glue the penguin together.

4.) Colour all parts. Glue the Eskimo: stick Eskimo's hands on the coat and glue on all remaining parts. Please note: push Eskimo's hand into the slot of his body. Glue on the shoes at the end.

5.) Turn the base plate. Then get the 3 small plates and glue them on the bottom of the plate. Now stick the circle on the ground plate.

6.) Knot the fish on the fishing rod.

7.) Glue the penguin and Eskimo into the slots of the ground plate. Stick the fishing rod into Eskimo's hand. Stick the small metal plate (for the incense) on the ground plate. Please do not glue Eskimo's igloo on the ground plate!
